Key findings — full dataset

Previous success: 64.34% conversion—5.58 times the overall rate—but only 129 records (2.85% of the dataset). Test prioritised follow-up.

Repeated contacts: The 6+ band accounted for 36.10% of contacts but only 6.53% of subscriptions. Review follow-up through a controlled pilot.

Contact channel: Telephone and cellular had similar overall conversion rates. Their ranking differed by housing-loan status, and 29.29% of records had an unknown channel.

Previous outcome	Records	Subscriptions
success	129	83
other	197	38
failure	490	63
unknown	3705	337
